

## **European Youth Parliament**

Please see details of something you may be interested in, the school can have 8 students involved. Please let Ms Cunningham know by Friday Jan 22 at 2pm after discussing it with a parent/guardian if you are interested.

### **Information on Programme**

"We are writing to you on behalf of the **European Youth Parliament** to let you know about this year's Munster Regional Session. This event will bring together 150 4th, 5th and 6th year students from every county in Munster alongside a team of international volunteers. The session will run online from the 18th to 21st of February 2021.

Due to Covid-19, we will be holding our event online in order to ensure the safety of our volunteers and the students. Over the last number of years, we have enjoyed a number of very successful regional sessions with the largest number of students at any EYP event in Europe. We look forward to translating that success and engagement to a digital session.

This is a great opportunity for students to develop skills in teamwork, communication, public speaking and current affairs, and the event will be a great contribution to CVs. It will be a great chance to make new friends in a positive learning environment which is, of course, extremely important, especially this year!!"
